

View or Change your Wi-Fi Name (SSID) and Password (Wi-Fi Key)

1. Go to your internet browser (i.e. Chrome, Firefox, or Internet Explorer) and enter 192.168.1.254

New Tab	×
$\leftarrow \rightarrow \mathbf{G}$	192.168.1.254

Login with your modem credentials, the default credentials are:

- Username: administrator
- Password is left blank.

If you are unable to login, please contact customer support for assistance.

2. Navigate to **Home Network** from the left menu, then **WLAN: <SSID>** on the top menu.

3. Click **Configure** in the top right corner.

Network Name (SSID): This is the wireless network name, you can personalize this if you like.

Channel Selection: This determines the channel your Wi-Fi signal will be broadcasted on. The "Auto" setting will change the channel automatically to avoid conflicts with other Wi-Fi networks.

Channel: This shows the channel the modem is currently operating on.

WPA PSK Encryption Key: This is your WIFI password, hidden as *********. You can check-off Show Key to reveal the password.
